

Upgrade Steps:

1. Backup the appsettings file.
2. Uninstall the Fiscal Edge client application.
3. Download the Fiscal Edge client version 2.1.2 from the repository at [App Link](#).
4. Install the downloaded version.
5. Replace the appsettings file with the backed-up version.
6. Edit the appsettings file to include the POS key in the PosConfig block.

```
"PosConfigs": [  
  {  
    "ConnectionString": "Server=tcp:localhost;Initial Catalog=test;Persist  
    "APIKey": "lVilgqBJq/NBseSSSjUYu0fsD40KFnCRQ3TSi+ZNj5g=",  
    "TerminalId": "SDC0060000006",  
    "BranchId": "000",  
    "LineItemDelay": 0,  
    "HasJobCard": false,  
    "Pos": "sqlserver",  
    "PalladiumDelay": 0  
  },  
]
```

7. Save the appsettings file.
8. Connect to the database and delete the ``zrainvoice`` view script.
9. Copy the new version from the repository at [Pastel Script](#) for Pastel or [Sage Script](#) for Sage 200. Copy only the ``ZraInvoice`` view from the script. Remember to update the Currency Types and Cutoff date. **Do not modify other scripts**
10. Update the date, currency type, and branch ID on the script and execute the script.
11. Reach out to Fiscal Edge to update the taxpayer profile.
